TOWABLE FORKLIFT SALT SPREADER MODEL TG – 150

Ideal for use in combination with our very popular Snow Ploughs. No wires or hoses to connect. The salt spinner is wheel driven. A Salt Spreader reduces the risks of injuries and subsequent claims from slipping on ice.

Designed for use only with DRY salts sold for spreading.

E.g. Rock Salts – Brown, Pink or White to BS 3247

**We recommend dried high purity White Salt to BS 3247 available in 25 Kg bags
Grit, Salt/Grit or wet salts do not work as efficient as spreading salts.**

A towable salt spreader that can be towed by almost any type of vehicle, e.g. Forklift, ATV, 4 x 4 or Quad Bike

Salt Spreader Features:

Caravan style 50 mm ball hitch as standard

Deflector for spreading salt

Hopper capacity: 150 Ltrs/180 kgs

Axle driven spreading

Adjustable spread width 2-15 mtrs

Adjustable spread direction: Left, right or 180 degrees behind

Adjustable flow rate

Supagrip ATV tyres

Unique spinner disengage lever – reduces wear and tear and saves salt

Internal hopper grid sieve

Internal hopper agitator

Optional Extras:

Non standard hitch adaptors manufactured to fit towing vehicle(replaces caravan hitch)

Hopper Cover to keep salt dry and free flowing

Road light kit: Consists of trailer lighting board and bracket.
