TOWABLE FORKLIFT “GRITTER” MODEL TG – 150

Ideal for use with our very popular Snow Ploughs. Simply “hitch and grit”. No wires or hoses to connect. The salt spinner is wheel driven. More road speed = wider spread. A gritter reduces the risks of injuries and subsequent claims from slipping on ice. Designed for use only with free flowing ice melts. We recommend dried high purity White salt to BS3247 available in 25kg bags. Grit, road rock salt or wet salt is not suitable.

A towable salt spreader that can be towed by almost any type of vehicle, e.g. Forklift, ATV, 4 x 4 or Quad Bike for spreading salt, seeds and fertilisers.

Gritter Features:

Caravan style 50 mm ball hitch as standard

Deflector for spreading salt and grit

Hopper capacity: 150 Ltrs/180 kgs

Axle driven spreading

Adjustable spread width 2-12 mtrs

Adjustable flow rate

Supagrip ATV tyres

Unique spinner disengage lever – reduces wear and tear and saves salt

Internal hopper grid sieve

Internal hopper agitator

Gritter Optional Extras:

Non standard hitch adaptors manufactured to fit towing vehicle

Hopper Cover to keep salt dry and free flowing

Road light kit
