## **TOWABLE SALT SPREADER MODEL TG-500 CAPACITY: 500 KGS**

**PLEASE NOTE: The TG-500 IS NOT A FERTILIZER SPREADER, it is a purpose built salt spreader towable by almost any vehicle e.g. forklifts, ATV, 4 x 4 , cars, Quad Bikes.....  
Designed for use only with DRY salts sold specifically for this type of spreader.  
We recommend dried high purity White Marine Salt to BS 3247 available in 25 Kg bags  
Brown Rock Salt, Grit, Salt/Grit or wet salts will not spread as efficiently.**

**Standard features essential for safe, controlled and efficient salt spreading are:**

**Internal hopper agitator specifically designed for salt  
Galvanised Hopper 500 KGS Capacity  
Grading grid/safety guard inside hopper  
Stainless Steel Spinner and Fan Blade  
Stainless Steel Spread Limiter/Deflector – essential for safety and control  
Unique spinner disengage lever – reduces wear, clogging and skidding  
Heavy duty industrial axle driven spinner means no wires or hoses to connect.  
Road legal large quad bike tyres for best traction  
Massive spread width, adjustable 2-15 mtrs  
Spread direction: 180 degrees behind  
Adjustable flow rate  
Caravan style 50 mm ball hitch as standard**

**Optional Extras:**

**Non standard hitch adaptors manufactured to fit towing vehicle(replaces caravan hitch)  
Elasticated PVC Hopper Cover to keep salt dry and free flowing  
Road light kit: Consists of trailer lighting board and bracket  
Mud Guards c/w brackets to allow Legal Road Use (max 10 mph) Factory Fitted**
