ROLL FORWARD SKIPS (Heavy Duty)

Ideal for placing near machinery, in yards, workshops etc. Waste can then be transferred with a forklift truck, to a main skip and transferred by the simple pull of a lever.

Self-locking return and safety lock to prevent accidental emptying.

Heavy Duty skips – hopper body with folded top edges. Heavy duty easy action handle complete with safety catch. One way entry base frame as standard (3 way optional). Fitted with heavy duty safety chain. All industrial models come with the option to bolt on castors.

Non Standard and multiple options available eg.

- Mesh height increase
- Steel lids
- Canvas tops
- Heel pin fittings
- Auto tipping
- Lifting lugs

Specially designed and manufactured skips to suit any application are available.
