Designed to mount directly onto truck carriage. Most commonly used as a workshop crane, this type of jib is ideal for handling awkward loads on and off machines. A versatile jib having manual length adjustment (hydraulic available), whilst maintaining manoeuvrability when retracted. Supplied with safety swivel hook and shackle. Popular models shown below are 2000 mm retracted, 3000 mm extended. 10 lifting points at 750 to 3000 mm. Any length, capacity or mounting type available. Options at extra cost: Photo shows slightly raised jib, fixed hook on the end, jib stand.
